Machining

WIRELESS

Machine Tool

Operation Panel

Problems to be solved

- Machine Emergency Stop when wireless communication disconnected

Issues Resolved

- Wide Working Space
- Safe Walking

Manual Pulse

Cable

Sensing

Proximity switch

Problems to be solved

- Real-time Big Data
- Wireless Power Supply

Gap Sensor

Issues Resolved

- Wire-saving
- Extendibility
- Flexibility

17

Issues Resolved

- Extensibility
- Flexibility
- No Need Factory Wired LAN

Problems to be solved

- High security
- Unified communication standards between countries
- Communication expenses

Summary

Problems to be solved for **Wireless** Factory

- communication **Reliability** (Stable and fast communication)
- Wireless **Power** Supply / Power saving wireless communication
- Unified communication **standards** between countries

Thank you
